

**Move-in Information & Schedule
For
2017 Denver Boat Show**

1. All times posted are estimates. Bad weather and sloppy streets can delay your move-in time up to 3 hours or more. Listen to the forecast and be prepared for delays. Move-In Schedule is based on Good Weather.
2. **We will utilize Lot A at Sports Authority Field at Mile Hi for staging on Tuesday January 3rd only.**
3. Please do not go to the Convention Center unless you are notified to do so. When you arrive at the staging area, you will need to remove all snow from boats, trailers and vehicles. Units that arrive at the Convention Center with excessive snow may be asked to return to the staging area to be cleared. Time spent at a car wash may be dollars well spent. Having to remove snow at the ramp slows down the entire move-in schedule.
4. Please call Steve Linton before you leave your dealership to confirm that your space will be ready at the scheduled time and to avoid a long wait at the staging area. (Steve's cell # 303-859-1284).
5. Vehicles and Boats will **NOT** be allowed **UP** the ramp after 4:30 p.m. and the exhibit hall will close at 6:00 p.m. Tuesday thru Thursday (weather dependent).
6. Pressure washers will be available at the entrance ramp on Monday afternoon and all day Tuesday and Wednesday only.
7. All Vehicles & Trailers must be parked within your booth space or parked on the street or parking garage (not the loading dock). No vehicles will be allowed in the halls on Thursday or Friday. Vehicles & Trailers parked in the aisles slow the entire move-in process.
8. Each exhibitor should have cell phones numbers for all their drivers so that any changes can be communicated.
9. Be extremely careful when driving on carpet - tight turns or backing of tandem/triple axle trailers can cause damage to another exhibitor's carpet and you will be held responsible for its replacement.
10. Please have Vehicle Identification Passes displayed on the dash of each vehicle prior to arrival at the Convention Center. These are NOT Dock Parking Passes.

Monday, January 2, 2017
