

Move-in Information & Schedule for 2023 Denver Boat Show

1. All times posted are estimates. Bad weather and sloppy streets can delay your move-in time up to 3 hours or more. Listen to the forecast and be prepared for delays. Move-In Schedule is based on Good Weather.
2. There is no staging area for 2023.
3. Please call Steve Linton before you leave your dealership to confirm that your space will be ready at the scheduled time. (Steve's cell 715-292-8344).
4. Please pay attention to the move-in schedule as entrance streets (Welton or Champa) will vary. We will only be using Welton on Monday. On Tuesday we will be utilizing both Welton and Champa. Wednesday, Thursday and Friday - Welton only. It is critical that you only enter the entrance you are assigned. On the Champa side you will be entering through Hall F. Pay attention not to block traffic on Champa.
5. Units that arrive at the Convention Center with excessive snow may be asked to leave and find a location to clear the snow prior to entry. Time spent at a car wash may be dollars well spent. Having to remove snow at the ramp slows down the entire move-in schedule.
6. Vehicles and Boats will **NOT** be allowed **UP** the ramp after 4:30 p.m. and the exhibit hall will close at 6:00 p.m. Monday thru Thursday (weather dependent).
7. Pressure washers will be available at the entrance ramp on Monday starting at 10:00 a.m. and all-day Tuesday (on both Champa and Welton) and on Welton only Wednesday all day. No pressure washers on Thursday - utilize a car wash prior to arrival if needed.
8. All Vehicles & Trailers must be parked within your booth space or in the parking garage (not the loading dock). No vehicles will be allowed in the halls on Thursday or Friday. Vehicles & Trailers parked in the aisles slow the entire move-in process. Plan your move-in so trailers can be unloaded quickly and then moved from the hall.
9. Each exhibitor should have cell phones numbers for all their drivers so that any changes can be communicated.
10. Be extremely careful when driving on carpet - tight turns or backing of tandem/triple axle trailers can cause damage to another exhibitor's carpet and you will be held responsible for its replacement.
11. Please have Vehicle Identification Passes displayed on the dash of each vehicle prior to arrival at the Convention Center. These are NOT Dock Parking Passes.

Monday, January 23, 2023
